

—great for a few minutes, but, fooy! what a head it leaves!

And Economy is the right road. It is the right road not so much that it is the right road itself. It is because of the right things to which the road leads. Extravagance, as a road, might not be so bad were it not for the bitter evils that lie along its winding length. But as it is—

Economy makes for happiness. Extravagance makes for unhappiness and worse. And when you've said that you've said it all.

Battery Tonic

There's only one real battery tonic—only one kind of stimulant that helps keep your battery in trim.

That's pure water.

Just pure water—no acid. Add a little every week or so and you'll sidestep a lot of battery troubles.

Or bring your car in and we'll add it. Be sure to drop in at regular intervals and let us test the battery.

Ask while you're in about Threaded Rubber Insulation. Don't forget to mention that you want a copy of the booklet, "A Mark with a Meaning for You."

THOUSANDS STARVING TO DEATH IN RUSSIA

DISEASE EPIDEMIC STALKS
BEHIND HUNGER.

Communication With Interior
Has Ceased Entirely—Situation Terrible.

Paris, Dec. 27.—(U. N. S.)—Thousands of persons in northern Russia are dying of starvation, it was claimed here today by an American who has just arrived from Petrograd and Moscow.

The most terrible famine is raging and influenza and other epidemics are sweeping the population. Eighty per cent. of the cases are fatal, it was said.

The bolsheviks are giving food only to the red guard. No care at all is being taken of the lower classes.

Russian prisoners of war still detained in Germany are not receiving any food from home, and they, too, are dying in swarms.

The allied troops at Archangel are exchanging occasional pot shots with the bolsheviks.

"The big cities are going to ruin," said the traveler. "The situation is the most serious imaginable. The gravity has reached such a stage that it may be the subject of a conference in London when ex-President Wilson arrives there."

Communication between Petrograd and Moscow and the interior of Russia has ceased entirely.

Prompts steps must be taken if Russia is to be saved, in the opinion of the informant.

DECEMBER SURVEY

Shows Commercial Stocks of Wheat Runs Into Millions.

Washington, Dec. 27.—The commercial stocks of wheat reported in a survey made Dec. 1, by the department of agriculture, amounted to 215,434,832 bushels, it was announced today.

Holdings by 10,669 firms—elevators, warehouses, grain mills and wholesale dealers—were more than twice as large as the stocks held by the same firms a year earlier, the actual percentage being 206.1 per cent. of the 1917 stocks.

The figures refer to stocks actually reported and do not represent the commercial stocks of the country, nor do they include stocks on farms.

ARE NOW FACTORIES.

French Turn Big Plants to Work of Peace.

Paris.—(U. N. S.)—The French ministry of armaments has been transferred into the ministry of industrial reconstruction.

It announces that the arsenal at Bourges, which cost \$20,000,000 to build, was turned into a plant for the erection of railroad material, so will the arsenal at Bourges and Chateaufort. For four years France has needed railway material and has placed large orders in Pittsburgh. The car parts have been shipped over from the states and erected in temporary plants by American car builders. Now that the war is over, France intends to use the existing plants.

Another large arsenal, at Palmarin, will be used for the manufacture of chemicals and dyestuffs. At Bourges there is to be a big dyeing works, which will compete with the German plants.

HOLY ROLLERS FINED

For Gathering Children During Influenza Epidemic.

St. Louis, Mo.—(U. N. S.)—When Rev. John W. Hutcherson, Holy Roller preacher, found the "commandments of the Lord" conflicted with those of the health department, he ignored the latter. And so it came to pass that when John Hutcherson, an evangelist, ventured into the gathering place of Hutcherson's flock here, he found many little children present. He had stopped a meeting.

"These children will have to leave," he told the preacher. "The health commissioner has ruled that children under 16 years cannot attend public meetings."

"Get out your money," Hutcherson told him. "Harris got. But he found a policeman and two returned. Hutcherson chased them both away. Later they went back, stopped the meeting and Hutcherson, the roller, was rolled to the police station. In city court, Judge Sanders asked:

"Why did you let those children attend your meeting?"

"The Lord says, 'Suffer little children to come unto me,' so I let them come in," Hutcherson said.

"Yes," said the judge. "True enough. But when the Lord said that He didn't know anything about the flu." Fifty dollars and costs.

MESS TIN BALKS GOVERNMENT

Britain Cannot Determine Who Owes for Lost Utensils.

London Times (Pat. Leaders' Club).—In one of the branches of the army entrance department there is a thick bundle of memoranda and the correspondence relating to two game plates and the cover of a mess tin. They were lost by private Jones in the early part of 1915.

The correspondence still continues in a state of confusion. It is not known who shall pay the \$2.00 at which they are valued.

Private Jones was sent on a course at short notice.

NO COUGH SINCE USING LUNG-VITA

Ill Effects of Whooping Cough Had Held On.

LESS THAN BOTTLE USED

Chattanooga Mother Says She Is Glad to Indorse Lung-Vita.

"My son had a bad attack of whooping cough some time ago, and the cough continued to be very troublesome. Lung-Vita was suggested and I began giving it to him," says Mrs. T. S. Gay, 3 East 15th Street, Chattanooga, Tenn.

"In a very short time the cough yielded to the treatment and soon entirely subsided. He has not been bothered in the slightest with any cough since he used Lung-Vita. Less than one bottle effected the cure. I am glad to endorse Lung-Vita because of the good it did my boy."

Lung-Vita is also a good medicine for stubborn coughs and colds. Entirely harmless, yet quickly effective. Give it a trial. Your druggist or dealer should handle it, but if he won't supply you, write Nashville Medicine Co., Nashville, Tenn., for free booklet.—(Adv.)

RESINOL ENDS YEARS OF UNSIGHTLY SKIN TROUBLE

Oct. 14.—"My face and neck broke out with small pimples which swelled and festered until they were like boils. When I opened them they filled again and caused intense pain and loss of sleep. At last they were so disfiguring I had to give up my position and could not go anywhere. After five years of this trouble, and having used many other preparations, I tried Resinol Ointment and Resinol Soap. The pain and itching was relieved at once, and when I had used 1 1/2 jars of Ointment and seven cakes of Soap I was cured. Now my skin is clear, and when I shave it is as soft and pink as a child's." (Signed) Jerald H. Kessler, 308 East 93d St., New York City.

Resinol Ointment and Resinol Soap are sold by all druggists.—(Adv.)

GERMANY'S SUPERMAN CONTINUALLY "RAN FOR COVER," SAY EX-MINIONS

Hindenburg's Quarters at Spa Included Underground Refuge, Americans Find.

Spa, Belgium, Dec. 16.—(Cor. A. P.)—The former headquarters of the kaiser and his general staff is disclosing some extraordinarily queer facts these days about the men who engineered the world war. Take, for one, Hindenburg, Germany's "superman." Described without restraints of fact he spent a great deal of time in a wonderfully constructed "funk-hole" or dugout underneath the ground of his villa here.

Spa, it may be noted, is almost on the German border, and so far from where the battle lines used to be there was almost a day's journey in a fast motor car to get within sound of the big guns. The kaiser, too, had a similar hiding place at Neubeau, near a comic opera trench system about which he is said to have paraded for the benefit of motion picture cameras. There were there delicate electrical instruments which would set up furious buzzing whenever a airplane approached anywhere near. At the first sound of the contrivance Hindenburg and the kaiser used to run to shelter. It is reported. People who worked in Hindenburg's establishment said that he was continually running for cover.

America's representatives on the international armistice commission show the occupying Hindenburg's headquarters, and they were amazed when they discovered this underground refuge of the great warrior. The entrance was

through the dining room. From there a flight of steps led down to a tiled anteroom, which, by the way, now serves as a very good pantry for the Americans.

From the tiled room there was another flight of steps that led down to the real dugout. This was blocked by a huge iron door about one inch in thickness, which could be locked from the inside only. Within it was fastened by a double bolt which would do credit to an American banking establishment.

Luxuriously Equipped.

The dugout itself was luxuriously equipped. On the floor was a heavy flowered carpet and a Louis XV table and chairs added to the artistic arrangement. The walls, which were of corrugated iron, were painted solid white and the whole place brilliantly illuminated by electricity. On a little table was an electric fan to keep the marshy cool in summer, while an electric stove for heating the room in winter. The room was about 14x12 feet and was protected by 4 to 6 feet of earth about it.

The emperor's dugout was similar, except that it was much deeper underground and there were two entrances. One through the villa and the other from the grounds. The main entrance was from the house, and led down a long flight of steps.

Another touch to the picture was today when a German resident of Aix-la-Chapelle told the correspondent of the Associated Press that the crown prince spent virtually all of his time in amusement.

Gas shells they were, and we donned our masks and made for the cars.

The lieutenant in charge of our party bowed to the oldest correspondent and bade him enter the car. The latter, being Belgian, in turn bowed to his neighbor and motioned him into the car. He demurred, and then followed some Alpine and Gascon movie pictures, until some one motioned to me to enter the car. I did. Then they all piled in. And as we moved down the road to Thiel shells splattered along the muddy road.

TESTAMENT TO PRISONERS

Knoxville City Judge Gives Each One 36 Stores In U.S.A.

(Knoxville Sentinel.)

Tears were seen in the eyes of most of the twelve men whose lives were suspended this morning in city court by Judge Robert P. Williams. A most touching talk was delivered to the men, most of whom were arraigned on the charge of drunkenness.

Judge Williams called their attention to God's service staff, which shone 1918 years ago today. He referred to the charges which had been preferred against the men assembled before him, and told them that the laws of the state and city demanded that fines be assessed against them.

"The man whose birth we are today celebrating," Judge Williams continued, "taught us to show mercy and asked us to make useful men of ourselves. In the name of our Savior and your mothers, your fathers and your mothers, your wives and your children, you are free men. Go your way and sin no more."

He stated to them that good citizens are what the city of Knoxville needs, adding that he would rather see them make useful and law-abiding citizens than that the city should collect \$10,000 in fines from them.

Three years ago today," he declared, "I suspended the fines which had been imposed on eleven men, and asked them to abide by the laws. Only one of those eleven men has been brought before me since that time. This is worth more to the city than any amount of fines that I might have collected."

Concluding his remarks, Judge Williams called the names of each of the men before him, giving each a new handshake and bidding them a merry Christmas. He presented them with a New Testament. These little Bibles bore the name of the man to whom given, and that of Judge Williams.

"Read this," he said, "and try to follow the teachings contained and you will never be brought into a court again."

HONOR FOR ASTOR

Selected to Command Yeoman Guard at Palace of Versailles.

New York, Dec. 27.—Incident Astor, who turned his yacht over to the government after the United States entered the war, and who enlisted to command a yeoman guard at the Palace of Versailles during the peace conference, it was learned here today.

The news came in a letter from Yeoman Lawrence J. Minton, of Baltimore, who has been stationed at Rochefort, France. He said that he had been selected as one of the twelve men to serve under Mr. Astor.

ADMIRAL BLUE HOME

Naval Board Meets Monday to Discuss Promotions.

Washington, Dec. 27.—Rear Admiral Victor Blue, recently appointed chief of the bureau of navigation, and who has just returned home from Europe in command of the battleship Texas, will take up his duties at the navy department Monday. Admiral Mayo, commanding the Atlantic fleet, the nine rear admirals composing the naval board of selection, also are coming to Washington to meet and discuss recommendations for promotion for officers of the higher grade. During Admiral Mayo's stay in Washington, Secretary Daniels expects to discuss with him and with Admiral Blue plans which will keep officers more permanently on duty, and also to discuss the possibility of during the war emergency.

PLANS FOR REPUBLIC

Upper Silesia Appeals to Czech-Slovaks for Protection.

Washington, Dec. 27.—Steps have been taken to form a republic of Upper Silesia, under the protection of German Poland and the Czech-Slovak state, according to advices received here today from Berne.

The parties working for a republic in Silesia have already sent the delegates to make arrangements with Thomas H. Masaryk, president of the Czech-Slovaks, for protection from that state, according to the advices, which quote a telegram to the German Wolff news bureau.

"President Masaryk declared that the Czech-Slovaks would claim the right to some parts of Upper Silesia, but that they were in favor of the formation of this new republic," the advices add.

The newspapers of Upper Silesia published on Dec. 18, a declaration of the formation of an independent republic, while later the German press protested against this "new separatist movement."

PRAYER SAVES LIFE.

Soldier Would Have Been Killed Standing.

Talbotown, Pa.—(U. N. S.)—The fact that he was kneeling in prayer saved the life of Private John Quarrel, Jr., of this place. A letter from the soldier's mother says that he was saying his prayers at the side of his cot when a German shell tore his test to pieces, vaporizing his left test and he suffered a slight wound in his head. "I probably would have been killed had I been in a standing posture," he said.

JAP FARMERS RICH.

Automobiles, Not Flivvers, Find Ready Sale.

Yakima, Wash.—(U. N. S.)—That farming pays rich rewards is a fact that Japanese ranchers have purchased 100 automobiles in the last year, and there isn't a "flivver" in the lot. The Japanese farmers rent their lands.

BOLD ATTEMPTED ROBBERY

Masked Bandit Holds Up Bank Messenger on Busy Street.

Toronto, Ont., Dec. 27.—Armed with a revolver and rope, a masked bandit attempted to hold up a Bank of Montreal messenger on a busy street at Queen and Yonge streets. The messenger attacked the bandit, who fled through the busiest thoroughfare in the city, and was captured by traffic constables. He gave the name of Wm. Smith and said his home was in Massachusetts.

NEW PROBLEMS IN EAST

French Government Calls General Home for Conference.

Paris, Dec. 27.—New problems having arisen in the east, following allied occupation of parts of Hungary, Turkey, Russia and Bulgaria, the French government has summoned Gen. Louis Franchet d'Esperey, commander of allied forces in Macedonia, to Paris for a conference, says Marcel Hutin, of the Echo de Paris. The general is expected to arrive in Paris in a few days.

COURTESY BELGIAN TRAIT.

Consideration for Others Shown Even Under Fire.

Bruges, Nov. 8.—(By Mail.)—The Belgians are the most polite people in the world. Yesterday seven correspondents traveled to Antwerp. We were informed we might come by train and proceed in the direction of Ghent. As our two automobiles came over the ridge before entering the town, they were spotted by an observer in the German lines and, as we reached the entrance of the town and left our cars, preparing to enter on foot, a shell whizzed over our heads and exploded in a main street, killing five people and wounding many others. The Belgians followed about the same distance. Then they came so that I lost count.
